

# MIXER SEAL REPAIR AND RECONDITIONING

CHEMINEER

LIGHTNIN

PHILADELPHIA

PFAUDLER

GRAZZER

AND MORE.

PPC Mechanical Seals has the knowledge, experience and facilities to repair and recondition all major brands of mixer seals. PPC utilizes a dedicated mixer seal repair cell. PPC is experienced in handling shaft diameters up to nine inches.

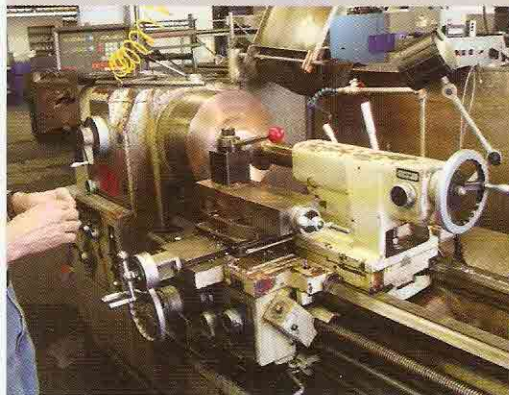

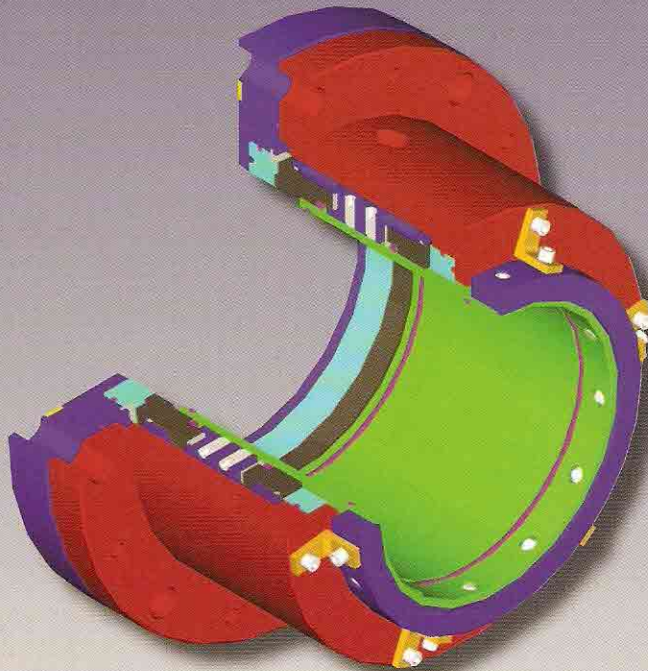

**A complete seal assembly, including a stub shaft, is routine work for PPC. The seals are completely disassembled, cleaned and inspected. PPC will evaluate all critical tolerances and fits to insure "like new" condition of the complete assembly.**

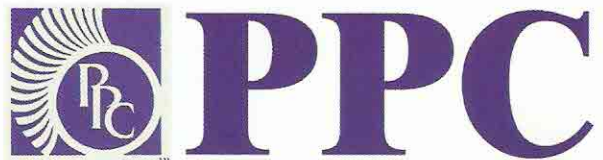

# Our Repair Facility

PPC can also perform a formal failure analysis on the old seal, with recommendations to improve the life of your seal. Upon completion of our repair, we will assemble & statically test your seal.

## WARRANTY

PPC SEALS AND SEAL PARTS ARE GUARANTEED TO BE FREE FROM DEFECTS IN MATERIAL AND WORKMANSHIP. THEY ARE GUARANTEED TO RENDER SATISFACTORY SERVICE WHEN USED FOR THE PURPOSE FOR WHICH THEY ARE DESIGNED.
